OUR RESEARCH

We invite you to learn more about AKC Canine Health Foundation funded research. Our diverse portfolio of innovative canine health research grants aim to find better treatments, more accurate diagnoses, and an improved understanding of the mechanisms that cause disease in dogs.

TOOLS FOR YOU

PARTICIPATE IN RESEARCH

Learn how you and your clients can make a significant impact on canine health research by participating in an AKC Canine Health Foundation funded study.

GENETICS RESOURCES

Genetic testing is one of many tools available to help breed and maintain healthier dogs. The AKC Canine Health Foundation sponsors several resources to help you and your clients make the most of this valuable information.

EDUCATIONAL RESOURCES

Explore helpful information such as health articles, infectious disease fact sheets, webinars, and more in our Educational Library.

TRIBUTE CARDS

Demonstrate your compassion and commitment to advancing canine health with a tribute donation.
