

Now enrolling!

Canine Lymphoma Clinical Trial

We are enrolling patients in a randomized, placebo-controlled clinical trial for dogs with naive or first relapse lymphoma.

Study Specifics

Dogs will receive investigational treatment (verdinexor OR placebo) in the form of oral tablets to be given at home twice weekly for 8 weeks. Owners will be required to bring their dog to the study site for regularly scheduled visits over a 2-month time period. Owners will also be required to record medication dosing and observations using a phone app.

Eligibility

- Must weigh at least 20 lbs (9 kg)
- Must be at least 1 year of age
- Has naive or first relapse lymphoma
- Otherwise in good health or any chronic conditions are well controlled

Funding

This is a fully-funded study. At no cost to the owner, qualified patients will receive:

- Free veterinary exams and rechecks
- Free lab work (CBC, chemistry, urinalysis, FLOW cytometry)
- Free diagnostics (radiographs, abdominal ultrasound)
- \$1,000 clinic credit for eligible, enrolled study participants

If you have a patient you believe to be a good candidate for this study OR you are interested in participating as a clinical investigator, please visit lymphoma.animalci.com for complete details or contact us at mfarbo@animalci.com.

Thank you!
