

#1 PROBIOTIC BRAND RECOMMENDED BY VETERINARIANS* TO SUPPORT DIGESTIVE HEALTH

Probiotic supplement for the management of puppies and adult dogs with diarrhea, or kittens and adult cats with acute and chronic diarrhea

Contains a probiotic proven to promote normal intestinal microflora

For canine patients, also available in 45- or 90-count packages of chewable tablets

*Kantar Veterinary Tracker (2021)

PROMOTES A HEALTHY GI MICROBIOME

Synbiotic action of probiotics and prebiotics for the management of dogs and cats with diarrhea and to support a healthy intestinal microbiome

Contains prebiotic fiber (psyllium) to stimulate the growth of specific bacteria, including *Lactobacillus* and *Bifidobacterium* species

Contains prebiotic fiber to increase gastrointestinal microbial diversity

A nutrient-enriched water containing osmolytes, which help cells absorb water

Cats consume on average 50% more liquid each day*

Shown to decrease urine specific gravity and osmolality

*Compared to cats consuming only water in addition to dry feeding. Cats must consume at least 2 oz per 5 lbs of body weight daily for benefit.
