

NEVER STOP LEARNING

Universal Imaging Continued Education enables you to improve the quality of care that you offer your patients.

2023 U-LEARN ULTRASOUND

Education Is Our Foundation - Since 1988

Universal Imaging is dedicated to fulfilling your veterinary education needs.

Our state-of-the-art classrooms are fully equipped with the latest imaging equipment. All instructors are board certified and have exceeded AAVSB's RACE and NYSED training criteria.

- Beginner, intermediate and advanced CE
- Lecture and hands-on wet labs
- Learn image capture techniques
- Image interpretation - theory and practice
- Qualify and quantify disease states
- Optional one-on-one training, by appt.

See the Difference

- 15 CE hours with AAVSB's RACE approval
- Weekend courses - no weekdays out of your practice
- 100% board certified faculty
- Canine and feline patients at all labs

CE Accreditation

All Universal Imaging courses meet the requirement for 15 hours of Continuing Education in jurisdictions that recognize AAVSB's RACE and NYSED approval. Participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of Continuing Education.

COURSE DESCRIPTIONS ON BACK

UNIVERSAL IMAGING
SEE THE DIFFERENCE™

ALL COURSES INCLUDE:

HANDS-ON LABS • KNOBOLOGY • SYLLABUS • CD-ROM • RADIOGRAPHY INTRODUCTION • GREAT FOOD!
(BREAKFAST & LUNCH)

COURSE DESCRIPTIONS

BASIC ABDOMINAL

Basic overview of abdominal ultrasound including physics, scan techniques, color Doppler and normal abdominal sonographic anatomy. Emphasis will be the normal anatomy of the abdomen and unique isomorphic appearances of the abdominal organs. Emphasis will also be placed on the use of normal abdominal vessels to aid in identifying normal structures and their expected anatomic location.

BASIC CARDIAC

Basic overview of cardiac ultrasound, covering principles of performing a basic echocardiogram including standard imaging windows, imaging planes and standard views. cursory understanding of color flow, pulsed-wave Doppler and continuous wave Doppler evaluation. Echocardiographic abnormalities with common canine and feline heart disease.

INTERMEDIATE ABDOMINAL

Overview of scanning techniques including Doppler and color flow imaging and commonly encountered abdominal abnormalities. Acquire experience in performing studies with the patients in lateral and dorsal recumbency.

INTERMEDIATE CARDIAC

Detailed understanding of color flow, pulsed wave Doppler and continuous wave Doppler evaluation. Understand calculations invoiced in systolic time intervals, applying principles of Doppler evaluation and volumetric calculations.

BASIC/INTERMEDIATE ABDOMINAL

Basic overview of abdominal ultrasound including physics, scan techniques, color Doppler and normal abdominal sonographic anatomy. Emphasis will be the normal anatomy of the abdomen and unique isomorphic appearances of the abdominal organs. Emphasis will also be placed on the use of normal abdominal vessels to aid in identifying normal structures and their expected anatomic location.

Overview of scanning techniques including Doppler and color flow imaging and commonly encountered abdominal abnormalities. Acquire experience in performing studies with the patients in lateral and dorsal recumbency.

ACCOMMODATIONS

Hotel group rates available. Reservations must be made 30 days in advance to receive the discount. Check you confirmation email for more details.

Workshops administered by Universal Seminars

Included in Education Packages

BEDFORD HILLS, NEW YORK

January 21 & 22	Basic Abdominal
February 25 & 26	Basic Abdominal
March 11 & 12	Basic Cardiac
April 22 & 23	Intermediate Abdominal
May 20 & 21	Basic Abdominal
June 24 & 25	Intermediate Abdominal
July 15 & 16	Basic Abdominal
August 19 & 20	Intermediate Abdominal
September 9 & 10	Intermediate Cardiac
October 21 & 22	Basic Abdominal
November 11 & 12	Basic Cardiac
December 9 & 10	Intermediate Abdominal

POMONA, CALIFORNIA

January 28 & 29	Basic Abdominal
March 25 & 26	Intermediate Abdominal
September 16 & 17	Basic Abdominal
November 4 & 5	Basic/Intm. Abdominal

LITTLETON, COLORADO

April 1 & 2	Basic Abdominal
June 10 & 11	Basic Cardiac
September 23 & 24	Intermediate Abdominal

CHICAGO, ILLINOIS

January 7 & 8	Basic/Intm. Abdominal
June 3 & 4	Basic/Intm. Abdominal
August 19 & 20	Basic/Intm. Abdominal

More dates for this location coming soon.
