

Pharmaceutical Procurement Simplified

Integrity and Experience!

A trusted supplier since 2003!

Who We Are

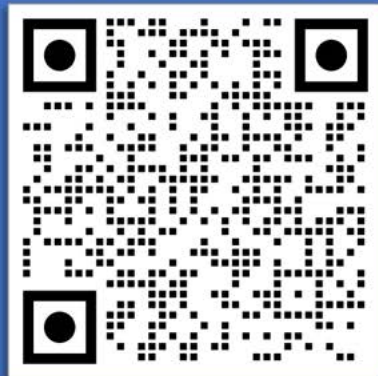

The Compounding Center (TCC) is a licensed pharmaceutical distributor supporting over 3500 healthcare facilities, including veterinary medical centers and universities, in 43 states. We provide access to over 40,000 healthcare products for various departments, such as Emergency, Internal Medicine, Oncology, Neurology, and more.

How we support veterinary hospitals:

- Veterinary clients receive assistance from a specialized representative who has expertise in the veterinary field.
- We provide a wide range of medicines and medical supplies available in the US, excluding controlled substances and compounded medications.
- Our online catalog enables customers to browse, quote, and order products directly from us.
- Regular email updates are provided to prevent shortages and minimize impact on facility and patients.
- Our procurement team keeps fast-moving products in stock, allowing for same or next business day shipping.
