

REAL PET EXPERTS
REALLY FAST DELIVERY

Best Pet|Rx

For over 15 years, Best Pet Rx has specialized in creating handcrafted medications that are carefully formulated to meet your patients' unique needs.

Our expert team provides unmatched support to veterinary teams and their clients, serving as a resource to help solve compliance challenges.

CUSTOM FORMULATIONS

Each medication is made-to-order, so you can select the best form, dosage, and hypoallergenic flavor. Consultations with our pharmacists are always complimentary!

FLAVORED ORAL LIQUIDS

Customizing the concentration can reduce the dose volume for easier administration and provide flexibility for dose adjustments. Give us the target dose or range and we'll work with you.

MICRO-TABS, MINI-TABS & SOF-CHEWS

Incredibly tiny, tasty treats are a popular choice for long-term maintenance. A great option when it's time to consider combination therapy.

Making medication time easier can strengthen adherence to complicated dosing schedules, help improve therapeutic outcomes, and support continuation of care.

HYPOALLERGENIC FLAVORS

Our 20+ flavors are protein-free and safe for pets with dietary or medical concerns. Pet owners can request free flavor swaps within five days of delivery!

AFFORDABILITY

Medication price is based on ingredients and production time. Filling larger quantities provides clients with the best value.

Ex. A 30-day supply of Drug A costs \$80

A 60-day supply of Drug A costs \$100

Ordering a two-month supply saves the client \$60!

EASY ORDERING

We make the process seamless for veterinary teams and their clients – from prescription intake to medication delivery:

- 1. It's always easy to reach a helpful human at the pharmacy via phone or email.**
- 2. Once we receive a prescription, we promptly call and text your client to confirm their order.**
- 3. Medications are sent to the pet owner with FREE next-day delivery!**
