

## Our Company

AnimalBiome Veterinary, a subdivision of AnimalBiome, is a privately-held company based in Oakland, CA that was started in 2016 by researchers at the University of California, Davis and the University of California, Berkeley. The founders, Dr. Holly Ganz and Carlton Osborne, have developed the world's first microbiome testing service for cats and dogs using genetic sequencing to build one of the world's largest healthy reference datasets for companion animals.

**Dr. Holly Ganz,  
Chief Science Officer  
and Co-Founder**  
15+ years studying the microbiomes of wild animals and translating research to effective microbiome-focused products for companion animals.

## Innovative Products

AnimalBiome offers a suite of targeted gut and oral microbiome restoration products designed to address the microbiome imbalances associated with many digestive, skin, and oral conditions. This includes rigorously screened FMT material for oral and enema fecal transplant procedures.

## Team of Experts

The veterinary team, consisting of veterinarians and highly educated professionals, is dedicated to supporting veterinary practices as they incorporate microbiome medicine into their daily protocols.

**Tonya Cooksey, DVM**  
Director of Veterinary Relations

**Carlton Osborne**  
Chief Executive Officer, Co-Founder

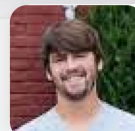

**Niokhor Dione, DVM, MSc, PhD**  
Senior Director of Microbial Discovery

**Robin Saar**  
Veterinary Onboarding Specialist

**Brandon Burch**  
Director, AnimalBiome Veterinary

**Sanjit Basak-Smith**  
Veterinary Consultant

## Veterinary Focus

AnimalBiome Veterinary is committed to ensuring your practice benefits from introducing microbiome medicine into your practice. Veterinary professionals with a free account on [AnimalBiome.vet](https://animalbiome.vet) can access:

### Continuing Education

Webinars, lunch & learns, research & client-facing materials.

### 1:1 Consultations

Direct contact with our on-staff veterinary professionals, including Dr. Tonya Cooskey, DVM.

### Specialized Advanced Training

Learn more about microbiome medicine, and how to implement this new science into your individualized practice.

### Improved Profitability

30-50% off MSRP based on monthly spend on AnimalBiome Veterinary Microbiome products

## Incorporate Microbiome Medicine Into Your Practice

### Veterinary Exclusive Products in our Test-Relief-Restore Model

#### Test

Identify the individual diversity of the patient's gut microbiome, detect pathogenic microbial overgrowth, and establish a baseline for your patient's gut health.

#### Relieve

GI Relief Kits and Skin & Coat Relief Kits can be used in various ways to relieve symptoms as a standalone system, an adjunct therapy, or concomitant use with antibiotics.

#### Restore

Utilize our rigorously screened FMT material, and innovative microbiome restorative products as part of your therapy plan.
