

# Solutions to Manage Dermatological Conditions

- ✓ BLUE Natural Veterinary Diet™ HF Hydrolyzed for Food Intolerance features highly digestible Salmon Hydrolysate, a novel protein source with a mean molecular weight of 2,000 Daltons.
- ✓ BLUE Natural Veterinary Diet™ NP Novel Protein features a truly novel protein source – alligator – as its first and only animal protein.\*  
*\*Complete and Balanced Nutrition for All Life Stages*
- ✓ Both diets are rich in Omega-3 fatty acids to help reduce skin cell inflammation and promote skin and coat health.
- ✓ Antigen testing is always performed to ensure HF and NP diets are free of evidence of contaminating proteins.
