

Come Join Our Team!

Specialty and emergency veterinary care is what we do and creating a network of trust and opportunity for veterinary professionals is who we are.

Veritas Veterinary Partners is excited to invite you to apply for our VERVe (**Veritas ER Veterinary**) training program. This high-quality ER mentorship training program has been developed to provide new graduates with superlative mentorship and training to prepare for a career in emergency medicine.

Successful applicants will be exposed to a well-rounded curriculum of strong clinical mentorship under senior Emergency and Critical Care clinicians on the floor, as well as first-in-class continuing education comprised of an ER procedural lab ('ER bootcamp') off-site at the Oquendo Center in Las Vegas, and structured didactic training.

VERVe mentorship training will entail an initial minimum 4-month training period of more focused mentorship and case oversight, during which mentees will gradually progress to autonomy on the ER floor. A 2-year commitment (inclusive of the initial training period) to a Veritas partner practice will be required of all candidates upon signing.

Overarching goals of the VERVe training program will be for trainees to achieve competency in:

- Performing a multitude of ER procedures
- Patient triage
- Interfacing with specialist clinicians
- Balancing a large and varied caseload in a busy ER environment
- Developing interpersonal and client communication skills to support and foster the team dynamic of the hospital

See our participating Veritas hospitals below and use the links to learn more and apply.
